GENERAL APPLIQUÉ INSTRUCTIONS

- 1. Print out the necessary pages from the PDF of the appliqué pattern(s).
- 2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
- 3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
- 4. Place the pattern pieces on the right side of the fabric and carefully cut them out. PHOTO 01
- 5. Sew the guide stitch on your hooped fabric. **PHOTO 02**
- 6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
- 7. Place the fabric inside the sewn guide stitch so that it matches the stitching line then remove the paper pattern. **PHOTO 03**
- 8. Sew the tackdown. **PHOTO 04**
- 9. Sew the remainder of the design and repeat for any remaining pieces. PHOTO 05

NOTE: The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size and then copy it on a copy machine at the changed size, i.e. resize the design to 80%, resize the printed pattern to 80%.

TIP: When printing the patterns, make sure that the "Fit to page" option is UNCHECKED in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

LAYERED APPLIQUÉ INSTRUCTIONS

Designs FB527_48, FB528_48, FB529_48 and FB530_48 are intended to have a worn, frayed layered appliqué. Creating this look is simple!

- Follow the general appliqué instructions included but cut two of the patterns from two different fabrics. In our sample we used a bright red for the bottom appliqué and dark red for the top appliqué.
- Note: DO NOT apply a fusible product to the appliqué pieces.
- After the placement line is stitched lay down your two layers of fabric together lining them up with the placement line.
- Continue stitching remainder of design.
- After stitching is complete, use a pair of small, sharp scissors to cut the inside of the top layer of fabric only. Leave ¼" to ½" of fabric on the inside of the sewn tackdown stitch. Don't worry about being perfect in cutting this. The look is meant to appear worn so imperfection is acceptable. (**PHOTO 01**)
- Fray all edges of appliqué fabric. A plastic knife with teeth is a fabulous tool for fraying fabric edges! (PHOTO 02)
- If the curved edges are not fraying well, simply clip into the curve slightly.
- When you are done fraying the edges your stitchout will be quite messy. Simply trim away any long, unsightly theads and use a lint roller to pick up the loose threads.

IMPORTANT:

When printing this document, the "Fit to page" option must be UNCHECKED or the "Page Scaling" option must be set to NONE depending on your printer's options. If this option is set incorrectly, the prints will not work correctly as patterns because they will not print at actual size.

MAKING PRECUT APPLIQUÉ USING BERNINA® CUTWORK ACCESSORY

SUPPLIES

- Cut-Away Stabilizer
- Temporary Spray Adhesive
- Appliqué Fuse & Fix Stabilizer
- Embroidery Thread
- Stabilizer that is appropriate for your project
- BERNINA® CutWork Accessory

PREPARE APPLIQUE FABRIC

- 1. Starch appliqué fabric 2-3 times following manufacturer's instructions.
- 2. Appliqué fabric should be crisp.
- 3. Iron Applique Fuse & Fix to the wrong side of the starched appliqué fabric following instructions on product packaging.

CUT APPLIQUE PIECES

- 1. Hoop one layer of Cut-Away Stabilizer.
- 2. Spray hooped stabilizer with Temporary Spray Adhesive.
- 3. Adhere prepared appliqué fabric to the sprayed stabilizer.
- 4. Send first CWA file to the embroidery machine (CWA files are the pre-cut appliqué files to use with the CutWork accessory; these files will end in CWA01, CWA02, CWA03 etc. The number of CWA files that will be available per design will depend on the design itself).
- 5. Replace normal stitch plate with the CutWork stitch plate.
- 6. Unthread the machine.
- 7. If necessary, turn off the upper thread control on your machine. Refer to your machine's user manual. Note that the most recent version of the 830 will perform this task automatically.
- 8. Replace embroidery needle with the CutWork Accessory.
- 9. Replace embroidery foot with foot #44 (If you do not have foot #44 you can leave foot #15 on the machine; foot #44 will simply keep the cut fabric from flagging as much).
- 10. Attach the hoop to the machine.
- 11. To cut the first appliqué piece follow the "thread changes" on your machine screen and turn the dial on the CutWork tool as required.
- 12. Remove the hoop from the machine.
- 13. Gently remove cut appliqué piece, trimming any thread that may have not been cut completely.

PHOTO 1

14. Repeat as needed for designs with multiple appliqué pieces

TACKDOWN APPLIQUÉ AND COMPLETE EMBROIDERY DESIGN

- 1. Replace the embroidery needle and rethread the machine.
- 2. Replace the embroidery foot #15.
- 3. Spray hoop sized piece of stabilizer that is appropriate for your project and adhere to wrong side of background fabric or project that is to be hooped.
- 4. Hoop fabric/project and stabilizer.
- 5. Attach hoop to machine.
- 6. Send the embroidery file to the machine (this is not a CWA file).
- 7. Stitch design as normal following the thread changes on the provided thread chart stopping after each Appliqué Placement Stitch.

MAKING PRECUT APPLIQUÉ USING BERNINA® CUTWORK ACCESSORY

- 8. After stitching an Appliqué Placement Stitch, take the precut appliqué pieces required and peel off the cutaway backing and the release paper revealing a sticky backing. **PHOTO 2**
- 9. Remove hoop from machine but do not remove the fabric from the hoop.
- Adhere precut appliqué piece evenly over the Appliqué Placement Stitch; use pressure to make sure pieces stick well. PHOTO 3
- 11. Reattach hoop to machine.
- 12. Continue stitching design until all appliqué pieces are placed and all stitching is complete. **PHOTO 4**

NOTE: Design pictured is for instructional purposes and may not be included in this collection.
