SUPPLIES:
- **Any firmly woven high quality fabric.**
- **Isacord Polyester Embroidery Thread**
- **OESD BadgeMaster or OESD AquaMesh Stabilizer**
- **Embroiderers' Wand**
- **505 Temporary Adhesive Spray**

PHOTO A

INSTRUCTIONS:
1. Lightly spray the top of a hoop sized piece of OESD Badgemaster or AquaMesh Stabilizer with 505 Temporary Adhesive Spray.
2. Place the sprayed stabilizer onto the wrong side of the fabric in the design area and hoop.
3. Place the hoop on the machine and begin stitching the design.
4. AFTER the "cutwork guide stitch" has been stitched, remove the hoop from the machine. DO NOT remove the fabric from the hoop. **PHOTO A**
5. Use the sharp point of an Embroiderers' Wand to gently pull the fabric apart from the stabilizer. Any enclosed area that is created by the first color of the design can be trimmed away to create the open work.
6. Use a small sharp pair of scissors to clip away ONLY the fabric inside the guide stitches. Leave the stabilizer intact. **PHOTO B**
7. Place the hoop on the machine again and continue stitching the remainder of the embroidery design.
8. Remove hoop from machine then fabric and stabilizer from hoop.
9. Carefully cut away excess stabilizer.
10. Follow instructions printed on stabilizer packaging to remove remaining stabilizer.

PHOTO B

NOTE: Design shown in pictures is for instructional purpose only and may not be included in your collection.
